We are a well-financed start-up with senior founders solving a problem of process and automation discovery we experienced in our daily consulting work. We are using state of the art technologies including artificial intelligence to show results and solutions not known in the industry until now. Our motivated team is constantly growing. We are currently looking for hands-on colleagues joining our exciting endeavor! Our teams are located in exciting office locations in Cologne and Katowice.

## Your Tasks

- o Drive the project deployment from a business perspective
- o Define and prioritizing business scope and requirements for deployment
- o Create and executing deployment plan
- o Manage deployment gaps/issues
- o Drive (senior-) stakeholder management and customer satisfaction
- o Collect, interpret and share feedback from deployment and loop into development roadmap
- o Business support during deployment tasks
- o Close collaboration with technical deployment consultant

## Your Profile

- o Solid experience in business project management (consulting background is a plus)
- o Experience in interacting with project stakeholders, collecting business deployment requirements and executing them
- o Basic knowledge of SSC / BPO / service management tools and process related best practices will be an asset
- o Experience in business aspects of Windows application deployment
- o Very good analytical and problem-solving skills
- o Ability to execute on time and above client expectations in multinational project environments
- o Effective communication skills in English (additional languages will be considered an asset)

## We offer

- o Joining a strong, multinational team with a professional approach, sharing knowledge and solving problems together
- o An exciting office located in Cologne or Katowice
- o Start-up flair paired with professional group experience
